

EAS Batteries GmbH is a manufacturer of large format cylindrical lithium-ion cells and battery systems, which are used in industrial, aviation, marine and automotive sectors. Thanks to the flexibility of the production line, EAS can adapt its products to special customer requirements and is the ideal partner for customized cells and battery systems for demanding requirements as well as for cell and battery development projects.

In order to strengthen our team, we are looking for a Project Manager* in the field of Lithium-Ion-Battery

Place of work: Nordhausen / Thuringia

Your responsibilities

- Management and collaboration in several lithium-ion battery projects
- Preparation of project management, in particular the creation of cost and schedule plans
- Acquisition and coordination of publicly funded joint projects
- Communication with customers, suppliers, and cooperation partners
- Creating and updating the necessary project documentation
- Taking responsibility for the project budget and constantly reviewing project progress
- Designing customer-specific special requirements for lithium-ion batteries
- Developing solutions for technical and procedural challenges with the project team
- Close technical coordination with the development department, the production team, and external business partners and consultants
- Presenting technology to strategic partners and customers and providing support in the preparation and negotiation of offers

Your qualifications

- Relevant experience in the leadership and management of industrial projects
- Completed degree in natural sciences (e.g., chemistry, physics, engineering, industrial engineering)
- Specialist knowledge of lithium-ion technologies is advantageous
- Very good organizational skills and assertiveness, team spirit, technical understanding, and innovative spirit
- High level of technological aptitude
- Flexible thinking, excellent communication skills, and enthusiasm
- perfect written and spoken German and English (C2)
- Excellent knowledge of standard MS Office software
- Willingness to travel occasionally (domestic/international)

What we offer

We offer you an exciting, permanent full-time position, an attractive working environment, exciting development opportunities, and a very good working atmosphere.

Would you like to join us in advancing the development of innovative energy storage systems? Then we look forward to receiving your detailed application by mail or email (please send all documents as a single PDF file attachment) to:
