

EAS Batteries GmbH is a manufacturer of large format cylindrical lithium-ion cells and battery systems, which are used in industrial, aviation, marine and automotive sectors. Thanks to the flexibility of the production line, EAS can adapt its products to special customer requirements and is the ideal partner for customized cells and battery systems for demanding requirements as well as for cell and battery development projects.

In order to strengthen our team, we are looking for a Employee for Battery Assembly*

Place of work: Nordhausen / Thuringia

Your responsibility

- Assembly of battery and charging systems
- Implementation and optimization of assembly processes
- Visual and technical testing of high- and low-voltage battery systems
- Setup and supervision of test rigs
- Installation of battery systems at customer sites

Your profile

- Training in a technical field, specializing in electrical engineering or mechatronics
- Professional experience in setting up electronic systems
- Practical experience in the above-mentioned field of activity desirable
- Ability to work independently and responsibly, with a high level of concentration, as well as ability to work in a team
- Good written and spoken German and English skills
- Willingness to travel occasionally (domestic/international)

We offer

- Challenging tasks in a dynamic environment
- A collegial working environment in an innovative technology company
- Flexible working hours
- Individual training and development opportunities
- Performance-based remuneration
- 30 days of vacation
- Capital-forming benefits

Would you like to join us in advancing the realization of innovative energy storage systems?

Then we look forward to receiving your detailed application documents by mail or email (please compile all documents into a single PDF file and attach it to your email) to:
